Summary

I'm Shardul Sapkota, a computer science student passionate about software development and building modern web applications. I focus on creating responsive frontends with React.js and developing secure, scalable backends using Laravel and PHP. I'm currently seeking internship opportunities to apply my skills in real-world projects and further grow as a full-stack developer. My goal is to deliver efficient, user-friendly digital experiences through clean code and thoughtful design.

• HTML • CSS • Tailwind CSS • JavaScript • React.js • PHP • Laravel • MySQL

Projects

Teachers Appointment System

<https://github.com/Stylebender001/Teacher-Appointment-System/>

This System allows:

- Students and teachers to register and log in.
- Role-based access to different views (student, teacher, admin).
- Students to view and book appointments with teachers based on their available schedules.
- Teachers to view, approve, or reject appointment requests.
- Admins to manage all users (students and teachers), view details, and remove users.

Quiz-App

<https://github.com/Stylebender001/Quiz-App/>

This system allows:

- Users to register and log in securely to access the quiz platform.
- Role-based access, with different functionalities for admins and users.
- Users to attempt quizzes from categories like .NET, General Knowledge, IQ, and Current Affairs.
- Admins to manage quiz content, including adding, editing, or deleting questions and monitoring user activity.
